Premium Plus Clear Chain

Clear Premium Plus is manufactured from medical elastomer with superior characteristics to the chains manufactured in Asia. Force is maintained over longer periods than with standard chains. Premium Plus Chain is thinner than other chains. The .018 to .020 thickness provides ample clearance when tying the chain on top of the bracket ligature ties and piggybacking with other forces systems. Premium Plus Chain is clear and highly resistant to staining; available in Closed, Open and Open Long. Sold on a unique colour coded 15ft reel for easy identification.
