## Interdenal Brushes

A new range of high quality interdenal brushes, using only the highest specification materials. High tensile strength, plastic coated, stainless steel wire at the core prevents the brushes from bending. For longer life the bristles are made from the same memory retentive nylon as used for tooth brushes. The brush is locked to the handle using a revolutionary production process making it virtually impossible for them to separate.

## Aligner Patient Kits

This individual kit provides four products used during treatment, all in one handy kit. Colours may vary.

This kit contains :

**One pack of 2 Chewies** – An essential product used to properly seat the tray after each appointment

**Two Retainer Retrievers** – A great aid that helps remove the appliance from the mouth quickly and efficiently.

**One Appliance Box** – A durable box that will fit almost any aligner appliance.

**One mini Appliance Box** – A small Box ideal for storing Aligner Chewies and Retrievers.
